01 Scope of Services

UX Labs Pro will provide the website design, development, hosting, maintenance, optimization, branding support, and ongoing support services included in the Client's selected package. The package is intended to provide a complete website service without separate add-ons for the services specifically listed below.

Included Package Services

1 Website Design & Development

- Fully customized website built to match the Client's brand identity and business goals.
- Modern, responsive design for mobile, tablet, and desktop devices.
- Fast-loading, secure, and user-friendly interface.
- Built with scalability in mind to support future growth.
- Easy-to-manage custom platform with a built-in editor for easy updates.

2 Website Hosting & Maintenance

- Reliable, secure hosting for 24/7 website availability.
- Automatic backups and site monitoring to support uptime.
- HTTPS Certificates included.
- TLS/SSL Encryption included to help protect website connections and visitor data in transit.
- Ongoing maintenance to support compatibility with current technologies.

3 Organic SEO Optimization

- On-page SEO setup, including meta titles, descriptions, headers, alt tags, and keyword placement.
- Local SEO targeting (if applicable) to support visibility in the Client's service area.
- Content structured for search engine indexing and user engagement.
- Integration with Google Analytics and Google Search Console for performance tracking.
- Continuous optimization to improve search visibility over time.

4 Logo Development & Branding Support

- Professional logo design, if requested.
- Multiple concept options with unlimited revisions for the logo design process.
- Final logo delivery in file formats suitable for digital and print use.
- Brand styling guidance, including colors, fonts, and usage recommendations.

5 Ongoing Support & Partnership

- Dedicated project manager to handle communication and service requests.
- Strategic guidance on website growth and marketing integration.
- Priority support for troubleshooting and urgent updates.

02 Scope Boundaries

The services above define the included package. Requests that introduce materially new functionality, new third-party systems, substantial redesigns, new websites, or work outside the agreed project scope may require a separate written change order or revised quotation. UX Labs Pro will communicate any applicable additional cost or timeline impact before beginning such work.

Routine support and updates are subject to the practical scope of the selected package and the availability of the Client's requested materials. This Agreement does not provide unlimited edit requests.

03 Client Responsibilities

- Provide accurate business information, content, images, logos, contact details, and other materials reasonably required to complete the services.
- Provide timely access to hosting, domain, website, analytics, social, or third-party accounts when such access is required.
- Review deliverables and provide consolidated, actionable feedback within a reasonable timeframe.
- Ensure that Client-provided content and materials may legally be used on the website and do not infringe third-party rights.
- Promptly notify UX Labs Pro of any material changes to business information, services, contact details, or other website content.

04 Fees & Payment

Project and/or service fees will be stated in the applicable proposal, quotation, invoice, or order form accepted by the Client. The parties agree that the payment schedule below applies unless a different schedule is expressly stated in writing.

PAYMENT	AMOUNT / TIMING
Initial Payment / Deposit	[Amount or %] — due upon acceptance
Final / Remaining Payment	[Amount or %] — due [before launch / date / as stated in proposal]
Recurring Services, if applicable	[Amount] — due [monthly / annually / as invoiced]

Work may be paused if required payments are overdue. Delays caused by overdue payments, missing Client materials, delayed approvals, or unavailable third-party services may affect the project timeline.

05 Third-Party Services & Costs

Unless expressly included in the applicable proposal or invoice, third-party fees remain the Client's responsibility. These may include domain registration or renewal, premium software or plugins, paid stock media, external SaaS subscriptions, payment-processing fees, advertising spend, or other third-party charges. UX Labs Pro may recommend or configure third-party services but does not control their pricing, availability, terms, or performance.

06 Content, Intellectual Property & Ownership

The Client retains ownership of materials supplied by the Client. Upon full payment of all amounts due for the applicable project, the Client will receive the final website deliverables produced specifically for the Client under the agreed scope, subject to any third-party licenses or restrictions.

Third-party software, plugins, fonts, stock assets, hosting systems, and other licensed materials remain subject to their respective licenses and are not transferred beyond the rights granted by those licenses.

UX Labs Pro may retain reusable development methods, know-how, frameworks, components, templates, and other pre-existing materials that are not unique to the Client.

07 Reviews, Revisions & Approval

UX Labs Pro will provide reasonable opportunities for review and feedback during the project. Feedback should be consolidated where practical. Changes that materially alter previously approved direction or fall outside the agreed scope may be treated as a change request and may affect fees and timelines.

For logo development specifically, the package includes multiple concept options with unlimited revisions as stated in the Included Package Services.

08 Timeline & Delays

Any estimated project timeline is dependent on timely Client feedback, content, approvals, access, and third-party availability. UX Labs Pro will make reasonable efforts to meet agreed milestones but is not responsible for delays caused by circumstances outside its reasonable control.

09 Website Security & Maintenance

UX Labs Pro will use reasonable measures to maintain the security and availability of the website, including the HTTPS Certificates and TLS/SSL Encryption included in the package. Security measures reduce risk but cannot guarantee that a website will never experience an outage, vulnerability, malicious activity, or third-party service failure.

10 SEO Disclaimer

SEO services are intended to improve technical and on-page search visibility. Search-engine rankings, traffic, leads, indexing, and placement are influenced by factors outside UX Labs Pro's control. Accordingly, UX Labs Pro does not guarantee a particular ranking, traffic level, or search-engine result.

11 Support

UX Labs Pro will provide support in accordance with the selected package and applicable service terms. Priority support refers to prioritization of qualifying troubleshooting or urgent update requests; it does not guarantee instant response or resolution. New features or work outside the agreed scope may be quoted separately.

12 Cancellation & Termination

Either party may request termination of the engagement in writing, subject to payment for services performed, approved work, committed third-party costs, and any non-refundable amounts stated in the applicable proposal or invoice. If the Client cancels after work has begun, amounts already paid may be applied to work completed and costs incurred.

13 Limitation of Liability

To the extent permitted by applicable law, UX Labs Pro will not be liable for indirect, incidental, special, consequential, or lost-profit damages arising from the services. UX Labs Pro's aggregate liability relating to the applicable services will not exceed the amount paid by the Client to UX Labs Pro for those services during the applicable project or service period, except where such limitation is prohibited by law.

14 Confidentiality

Each party agrees to use reasonable care to protect confidential business, technical, financial, and account information received from the other party and to use such information only as reasonably necessary to perform or receive the services.

15 Portfolio & Marketing

Unless the Client requests otherwise in writing before publication, UX Labs Pro may identify the completed website as part of its portfolio and may display screenshots or links for promotional purposes, subject to reasonable respect for the Client's confidential information.

16 Agreement & Acceptance

This Agreement, together with any accepted proposal, quotation, order form, or written scope referenced herein, constitutes the agreement between the parties regarding the services. If there is a conflict, the parties will first seek to resolve it in writing, with the most specific project document controlling for project-specific scope and pricing.

By signing below, each party confirms that it has read and understood this Agreement and agrees to the terms applicable to the services described herein.
